Dear Sir,

Use of Type C2 Non-Flowable Structural Materials for Reinstatement (SMR) in Utility Reinstatements

I refer to the 2 year trial of Type C2 Non-Flowable Structural Materials for Reinstatement (SMR) undertaken by Scottish Water in the Glasgow City Council area, which was completed on 30 November 2014 and note the contents of the Trial report provided.

I would advise you that in accordance with Section A9.5.2.5 of the Specification for the Reinstatement of Openings in Roads (January 2015), Ayrshire Roads Alliance would like to register approval, on behalf of South Ayrshire Council and East Ayrshire Council, for the use of Type C2 Non-Flowable Structural Material in reinstatements by Scottish Water.

Yours faithfully,

Stewart Turner
Head of Service
Ayrshire Roads Alliance
