have had occasions where Defective Apparatus notices have been declined straight away but after further persuit from us they have been accepted. SU should contact RA to arrange a joint meeting if defect is declined as per the CoP. Scottish Water and Scottish Power deal with Defective Apparatuce Notices and Unattributable Works Notices the next day so shouldn't have a turn around of 1 hour. Use system and other resources to check and see if the apparatus is theirs in house too. 10.2 Traffic Management Issues Works undertaken without a notice and without adequate TM. Contractors removed from site on 3 occassions. This will not be tolerated. 24hrs notices - Minor with excavation on non T/S roads, or 3-day notices on T/S roads when Traffic Signals are used as TM they require at least 7-days notice. These will be pushed back when received. A change request will be put through to Symology. Signals are still not manually controlled when permit specifically states that for peak hours. As mentioned before manually controlling temporary signals is a condition on permits issued for traffic sensitive locations. A discussion about temporary traffic signals and people managing them from their vans took place. PF mentioned that long times make people jumping the lights. EG and FMCI agreed that a risk assessment should be undertaken on site regarding safely and communication should be made with ELC. If TM type changes to a type that requires a permit (TTL/ Road Closure) then ELC should be contacted before the TM is set up on site. An email to Roadworks@eastlothian.gov.uk should be sent. There was an occasion where 3-way TL were set up affecting a planned Event. 10.3 SRWR Issues As mentioned above Emergency Notices and the correct use as the type of works has been an ongoing issue. This will be discussed further at the next SERAUC. FPNs have been applied which have been declined. In the meantime additional information needs to be provided for these on the notice. 10.4	Gazetteer Issues		
	Updates have been done on our Gazetteer with correction on road duplications. Discussions wth AMEY to be had regarding the A1 Data and their update.		
10.5	Other Comments		
	Unattended works have been an issue and always raise complaints from members of the public. A suggestion was made for signs to to be put in place to inform people of why works are unattended and when they will be complete.		
	SGN – Queen Road Remedials. They are having a meeting on Tuesday and shall inform of timeframe after that.		
	SP – Ian Fleming is replacing Neil Adamson for SP, who is retiring in October.		
	NM asked about St Baldreds Road, North Berwick. Need to get walkway in and remove the TTL today. NA was going to phone after meeting.		
	Virgin – Expanding their network from Joppa into East Lothian in 2019		
	NM – To E-mail SGN regarding Defective Apparatus / Unattributal Works		
	D1 inspections – SW and BT have no communication with Neil. SW say it is due to them only getting on contact if a joint inspection is necessary.		
	SW – Will give covers and drains for replacement works. They requested that they are not tarred over.		
	Thanks for early start provided by ELC for Woodbush
