No.	Description	Action By
	try and resolve the issues at local level.	
4	Performance	
4.1	All OD Performance OD Performance outstanding defect was presented at the meeting. This indicated that Scottish Power and Scottish Water had the highest percentage completed with Virgin media, SGN and energetics all below 50% resolved. Details of outstanding defects can be provided, is required but all utilities must try and improve on the numbers being resolved.	Noted Noted
5.	Programme of Works	
5.1	SLC programme of works for the next 3 months is available in the register The LRAUC report includes completed resurfacing works and ongoing restriction periods.	Noted
5.2	Co-ordination and Conflicts The report showing all potential conflicts between SLC and Utilities which have been identified for the next few months was discussed. Discussions took place of the entries marked in Red. This report was provided electronically to all Utilities before the meeting for review. Each attendee should review summary and agree to resolve conflicts with the area inspector where they arise. The report is produced to make sure works promoters are aware of things which could prevent them from starting. Due to the way validity periods work, having a notice in does not guarantee entry to the road, as TM must also be agreed in advance. Clydesdale B7078 – Cairnhouse to Millbank – SW and SP working in the area, with the work being co-ordinated Strathaven Road, – SP, SW and OpenReach working at various locations work is being co-ordinated. East Kilbride Eaglesham Road, East Kilbride – Significant amount of work proposed and underway in this area. SP and SW currently co-ordinating their respective works though SLC. Further works proposed Muirkirk Road, Strathaven – Multiple works proposed on this route with road closures (overnight for wind farm movements) and is also being use as a diversion route. Contact SLC utility inspector to discuss if required.	All ALL Noted Noted

South Lanarkshire Local RAUC Meeting, 21 November 2018 – Meeting No. 39

No.	Description	Action By
	<p>Hamilton</p> <p>Bothwell Road – SGN have major works, as do SLC, works being co-ordinated.</p> <p>Other major works planned and comments left on notices, to contact and discuss with SLC.</p> <p>Rutherglen</p> <p>The identified possible conflicts have been discuss at local level and should not cause any issues.</p>	<p>Noted</p> <p>Noted</p> <p>Noted</p>
6	<p>Community News</p> <ol style="list-style-type: none"> Changes in the Street Gazetteer have been proposed and are awaiting approval by RAUCS. Advice note 5 has been redone and the uploading will move from the SRWR to One Scotland in 2019. These changes should be in place prior to the rollout of the new register software Aurora, which is due in April 2020 The next round of the National Coring is scheduled for 2019. The lead authority for the SW RAUC area is South Ayrshire. 	<p>Noted</p> <p>Noted</p>
7	<p>AOB</p> <ol style="list-style-type: none"> Road Closures - CL advised that there has recently been a few roads closed illegally by utility companies, as they did not inform or contact Road Authority or Police requesting a road closure. CL reminded all that if an emergency road closure is required on the ground of safety then the must contact the Council before any road closure is implemented. Out of hours contact SLC 0800 242024. Planned road closure can, in some instance take up to 6 weeks to promote. SLC has raised these concerns with the utility companies at local level to ensure these event are not repeated. No Work on Site – There has been an increasing number of incidents when TM has been put in place and no work undertaken at the location. This is not acceptable, TM should only be put in place when work is being undertaken. The companies have been contacted by SLC at local level to get his resolved but if they fail to ensure compliance then the issue will be formally raise through RAUCS. Urgent Works – there has been a number of issues regarding the use of “Urgent Works” recently. One company has been using this the bypass the correct notice periods, for work which was clearly not urgent. There has also been occasions when we have been unable to contact a responsible person with in the company, when an urgent works notice has been raise, to discuss the inappropriate TM and use of this notice type. Inadequate TM used on Traffic sensitive roads under an urgent or emergency works notice. VP reminded All that if Temporary Signals are used then they must be manually controlled, until they can discuss and get approval from SLC on the TM being used. 	<p>ALL</p> <p>All</p> <p>All</p> <p>All</p>
