	information used to produce the report. Item closed  Road Closures – Cydesdale Area – SC responded to Area manager – Item closed  Virgin Media – Bothwell Area – Works ongoing to resolve issues.	Virgin Media / SLC																																																												
4	<b>Performance</b>																																																													
4.1	<b>All OD Performance</b>  A copy of the Performance Report was sent out electronically before the meeting for review.  OSRWC now produce their own report for RAUCS, SLC report is purely for information. Acting on the SLC report should help resolve any issues quickly before the OSRWC report highlights things.  Overall most organisations are performing well with marginal changes in the performance. However. SGN has deteriorated from 4% to 9%, Fulcrum with a 50% (although only 4 notices sent 2 were late). 5.1	SLC programme of works for the next 3 months is available in the register The LRAUC report includes completed resurfacing works and ongoing restriction periods.					Noted
5.2	Co-ordination and Conflicts					
	The report showing all potential conflicts between SLC and Utilities which have been identified for the next few months was discussed. Discussions took place of the entries marked in Red. This report was provided electronically to all Utilities before the meeting for review. Each attendee should review the high level summary and agree to resolve conflicts with the area inspector where they arise.					All
	The report is produced to make sure works promoters are aware of things which could prevent them from starting. Due to the way validity periods work, having a notice in does not guarantee entry to the road, as TM must also be agreed in advance.					ALL
	This report also includes resurfacing works. For enquiries please contact local inspector and not the named person on the notice.					Noted
	<b>General – All Areas</b> A cycle race is due to pass through SLC on the 14 and 15 September 2017 (route is in register), route details will be sent. Please ensure you do not programme or carry out any planned works on the days of the cycle race.					
	<b>East Kilbride</b> No Issues.					
	<b>Hamilton</b> Virgin Media have significant works proposed for the main routes in the Bothwell/Uddington Area. They were reminded that detailed TTM must be submitted and agreed before they can progress these works.					RF
